Sector Southeast Alaska Communications List

Purpose: This document provides a unified list of public-facing Sector phone numbers and email addresses.

Background: This MSIB will be updated as needed to reflect current Sector contact information. This MSIB replaces the phone list Sector released in MSIB 25-5 on 16 April 2025.

Main contact route: The Sector Command Center (SCC) phone number is the best 24/7 choice for contacting the Sector. Both emergent and non-emergent communications are welcome. Occasionally, cellular carrier disruptions and local power outages affect connections. Sector recommends that you save all phone numbers to your phone contacts for ready reference, prioritizing the number 866-759-6061 as a primary choice. The 866 number is less likely than the 907 number to be affected by local system disruptions.
