

Emergency Consultation Form

Endangered Species Act Section 7 and Essential Fish Habitat

Instructions

The Federal On-Scene Coordinator (FOSC), or their designated representative, should complete Part 1 as soon as practicable. Part 1 should be completed with the best available information at the time of the response and should account for all response actions implemented or considered.

Part 2 is intended to be submitted blank to the Services by the FOSC (or their designated representative), so the Services can both acknowledge the request for consultation as well as begin to consider the FOSC's actions or proposed actions during the emergency response.

Responders should not delay emergency response actions to conduct emergency consultation activities or await a response from the Services.
