

# USCGC KITTIWAKE (WPB 87316)

## COMMAND PHILOSOPHY

### Attitude

- Come to work and put the best foot forward. One thing we can all control is our attitude; if we have a positive outlook on the tasks and challenges we encounter on a daily basis then we be able to accomplish all that lie in front of us: positive attitudes are infectious and if you consistently embody one we'll inspire the same in our shipmates.

### Teamwork

- We need to work well together as a team; the way we do that is to identify strengths and develop our weakness as well as get to know our shipmates: clear communication sets the foundation, which includes acknowledging what information is being communicated to us. This should go without saying, but as look out for one another. When we work together as a team we are able to accomplish the mission.

### Development

- Constantly strive to get better and strengthen your skill set; this is done by utilizing the resources around you, which include policy, regulations, and your shipmates: experience is something earned not taught, by seeking opportunities to grow and challenging yourself is how we progress as individuals, as a team, and as an organization.

LTJG M. Rossi
