- ✓ Conducted 2,018 commercial vessel inspections and examinations.

### Sector Organization

A Coast Guard Sector is a shore-based operational unit responsible for the execution of all Coast Guard missions within its Area of Responsibility (AOR). The Sector Commander works as Captain of the Port, Federal Maritime Security Coordinator, Federal On-Scene Coordinator, Officer-in-Charge of Marine Inspection, and Search and Rescue Mission Coordinator. The Sector organization directly supports the Sector Commander in these duties and in the execution of the full range of Coast Guard missions, including Maritime Safety, Maritime Security, Protection of Natural Resources, Maritime Mobility, and National Defense.

### Joint Operations

Sector Puget Sound works closely with other Coast Guard units in the Puget Sound area including the Marine Safety and Security Team (MSST) Seattle and Marine Force Protection Unit (MFPU) Bangor.

Sector Puget Sound also coordinates operations with other government agencies including but not limited to: Customs and Border Protection, Transportation Security Administration, Federal Bureau of Investigation, Department of Defense, U. S. Navy, Washington State Patrol, Washington State Ferry System, Washington State Department of Ecology, and various City, County and Port Police/Sheriff and Fire Departments.

### Sector Puget Sound Facts

- Sector Puget Sound's vast geographic Area of Responsibility (AOR) adjacent to the Canadian border includes 10 ports and 12 counties with commercial maritime interests.
- Sector Puget Sound's AOR includes the three major commercial shipping ports of Seattle, Everett, and Tacoma. These three ports combined make up the 3<sup>rd</sup> largest shipping port in the U.S.
- Sector Puget Sound Domestic Vessel Inspectors examine 23 Washington State Ferries, the largest ferry system in the U. S., which transport nearly 25 million ferry passengers a year.
- Sector Puget Sound's Vessel Traffic Center is the largest in the U.S. and is a key traffic center in the Cooperative Vessel Traffic Service (C-VTS) shared between U.S. and Canada. Sector Puget Sound's VTS includes 3,500 square miles of waterways and supports over 218,000 annual vessel transits.
